

PRESENTS

Genetics and Genomics Grand Rounds March 27th | 4 - 5:00 pm | HSIB 880/Zoom

https://arizona.zoom.us/j/83648686758

Telephone: 602-753-0140 | Meeting ID: 836 4868 6758

Speaker Host: Valerie Schaibley, PhD | <u>vschaibley@arizona.edu</u>

Contact: Kathy Ben | kben@arizona.edu

Application of Genomics in a National Cancer Network – The Mayo Clinic Experience

N. Jewel Samadder, MD, MSc, is a Professor and Consultant in the Division of Gastroenterology and Hepatology, Dept. of Internal Medicine and a joint appointment in Clinical Genomics at the Mayo Clinic in Arizona. He is the Vice Chair of the Dept. of and also the Enterprise Medicine is Co-Director Individualized/Precision Medicine for the Mayo Comprehensive Cancer Center and Associate Medical Director of the Department of Development.

Dr. Samadder received his medical degree from the University of Toronto where he also completed his internal medicine residency. He then completed a fellowship in Gastroenterology at the University of of Michigan and an Advanced Endoscopy fellowship at the Mayo Clinic. During his gastroenterology fellowship, he also completed his Master's in Healthcare Research at the UM Medical School. His clinical interests focus on the diagnosis and management of patients with inherited forms of cancers, most notably those with gastrointestinal cancer syndromes such as Lynch Syndrome and Familial Adenomatous Polyposis. He has been an author of national and international guidelines for the management of patients with familial colon cancers and has led several multi-center clinical trials for the prevention of cancer in patients with FAP.
